Individuals request information from the ANCs that should be available on the website of Each of ANC. When the ANC is late placing the information within public domain, a FOIA may develop. Each ANC is its own FOIA Officer; on some occasions, the OANC Is asked to act as same. Invariably in the 19 cases above, the individual does not have Any idea what he or she is looking for: we have received comments that duplicate, "I know that they are hiding something." And "I just believe that they are lying." In each of the cited Cases, the requestor was asked to narrow terms in accordance with 1 DCMR sec. 402.4 and for each occasion, the requestor could not. On several occasions, Staff was asked, "Please help me to write what I want." So, to digress, the 19 cases listed at 234(a) above should be listed under 234(e) because the OANC denied same because the requestors failed to narrow their requests, to provide specific terms for search and to offer no reason for any search...they were simply "fishing."

Forgive me for the manner in which I completed this Survey: as you can see, I had a huge problem maneuvering the document.

Staff focus on getting the records to the FOIA Officer rather than tracking time spent searching and compiling.

The CJCC received 9 FOIA requests from the same individual during FY21. All of the requests were for records that the CJCC did not have in its possession, such as information on murder victims and offenders for incidents that took place in other states; information on celebrities, such as Britney Spears; and descriptions of CJCC's relationships with federal and state entities with which the CJCC does not have an established relationship.

Responses to questions 27 and 28 are a reflection of time spent by CJCC's Deputy Executive Director (9 hours at an hourly rate of \$75.44) and Policy Analyst (4 hours at an hourly rate of \$47.57) when reviewing the requests, determining whether relevant records existed, and responding to the requests.

DBH processed fifty (50) requests during FY21. The majority of requests were fulfilled within 15 days while the COVID-19 Emergency was still in effect. Interestingly, during FY21 there was only one (1) FOIA request related to COVID-19. There was a wide array of FOIA requests. Many requests were from private individuals. One requester submitted thirteen (13) requests unrelated to DBH. There were FOIA requests from Media and Research companies seeking contract information. Other requests were related to specific DBH Provider information, DBH expenditures, policy and procedures, Information and DBH employee information. There was no specific trend discovered.

For much of Fiscal Year 2021, certain FOIA response timeframes remained tolled due to the ongoing pandemic and public emergency. In December 2020, the Council passed legislation that began to phase out certain tolling periods. Specifically, any requests that were received from the beginning of the public health emergency declared in response to the pandemic on March 11, 2020, through January 15, 2021, were deemed to have been received during a statutorily-defined "Initial COVID-19 closure" period, subject to a 45-business day response period to complete requests for electronic records received during that period. Searches that required staff to conduct an on-site review of records that could present a significant risk to health or safety

remained tolled until October 27, 2021. As in Fiscal Year 2020, the Council continued to process FOIA requests during the tolling period to the best of its ability, but the continuing pandemic and the inability of staff to conduct on-site searches contributed to certain delays.

Additionally, while the total number of requests fell slightly from Fiscal Year 2020, the Council continued to receive a relatively high number of FOIA requests, and the requests themselves have become broader in terms of both the subject of the request and the number of locations to be searched for responsive records. Many requests generated large search results that numbered in the thousands of responsive documents, which required a great deal of staff time to review and process and required coordination with multiple, and many times all, of the Councilmembers' offices to ensure that reasonable efforts were made to search for the requested records.

FOIA volume decreased by approximately 4.2%. FOIA requests related to the COVID-19 pandemic were often complex. 95.5% of FOIA requests were completed within 15 FOIA days. 98.3% of FOIA requests were completed within 25 FOIA days. The 1.7% of FOIA requests completed on or after the 26th FOIA day was the result of the FOIA Officer not having timely received responsive documents.

The Freedom of Information Act requests received by the District of Columbia Water and Sewer Authority (the "Authority") represents a cross section of requests from the homeowners, businesses, and organizations. These requests include procurement inquiries for bid information, requests from environmental organizations, the local media and preliminary discovery requests in potential litigation. Requests were also received from homeowners concerning inspections performed and sewer backups. A number of these requests involved extensive research.

Since mid-March of 2020, the District of Columbia Housing Authority (DCHA) has adjusted to new workforce policies to protect the health and well-being of its employees while continuing the Authority's missions. DCHA employees responsible for responding to Freedom of Information Act (FOIA) requests have been confronted with many of the same challenges as other professionals managing new physical distancing measures, other health precautions, and caretaking responsibilities.

This report provides some insight into how the usual conditions that are the result of the public health response to the global pandemic have impacted the Authority's procedures, ability to respond, the availability of government information, and the ingenuity associated with developing a pivot to successfully comply with requests.

Due to the global pandemic, DCHA adjusted its normal operations to balance the need of completing its mission-critical work while also adhering to the recommended social distancing for the safety of our staff. As a result of this re-prioritization of activities, many FOIA requesters may have experienced a delay in receiving an initial acknowledgment as well as a substantive response to their FOIA request. DCHA acknowledges this inconvenience and is working to address its FOIA backlog.

DCHA does not use the District of Columbia's Freedom of Information Act (FOIA) Public Access Portal for processing FOIA requests. FOIA requests to DCHA can be sent by mail, facsimile, or email. During the most recent fiscal year, some inquiries were delayed. To ensure a more timely response to inquiries, we strongly advised requesters to contact DCHA by email, at foia@dchousing.org to submit FOIA requests.

In addition to this challenge, over the past fiscal year, DCHA has been notified of several FOIA requests that were incorrectly submitted to DCHA via the District of Columbia's Freedom of Information Act (FOIA) Public Access Portal. It appears that when requests for DCHA are incorrectly sent to the portal, requesters are not notified that the request is improper for DCHA nor is DCHA notified of the request. Ideally, the portal should generate a standard response message when it receives requests for DCHA or any other agencies that do not participate in the District of Columbia's Freedom of Information Act (FOIA) Public Access Portal.

The message to requesters would read as follows:

Your request is for an agency that does not utilize this portal. Please visit the webpage of the agency or contact the agency to identify the appropriate procedure for the submission of FOIA requests.

In FY2021, DCHR processed 64 of the 68 FOIA requests it received or had pending from the previous fiscal year. During FY2021, the city continued to experience the COVID-19 public health emergency. As a result, the Council allowed for additional time to respond to FOIA requests during part of the declared public health emergency. Notwithstanding the extensions, DCHR worked as quickly as practicable to respond to requesters.

DCOZ responded to all requests for FY 2021 within the statutory 15-day period. Of the requests processed, the majority requested information in the domain of another agency, primarily DCRA. There were no records for many of the requests, or the information requested was in the public domain at DCOZ.

DCPL received 30 FOIA Requests in fiscal year 2021. All requests were processed within the 15-day statutory time frame for responding to requests with the exception of one request. Most of the requests were processed in less than five days. DCPL received 16 requests for records that were not held by the agency. Nine of the 16 requests came from one requestor. Therefore, DCPL spent 30 percent of the time devoted to processing FOIA request on responding to one requestor who consistently submits unreasonable FOIA requests for documents that a reasonable person would not expect the Agency to possess.

QUALITATIVE DESCRIPTION OR SUMMARY STATEMENT

QUALITATIVE DESCRIPTION OR SUMMARY STATEMENT – DCPS ANNUAL FOIA REPORT FY 2021

DCPS continues to process a considerable number of voluminous and complex requests, involving large email searches, documents, and data. DCPS has continued to maintain efficiency with the completion of requests by utilizing all available human capital resources, including one team member whose sole purpose is opening new requests and sending acknowledgment letters. The FOIA team also continued to engage DCPS employees who serve as POCs for FOIA requests. This engagement includes meetings to discuss complicated or voluminous requests and discussions to clarify the responsibility of agency staff in performing searches to respond to requests. The FOIA team continues to be proactive in providing requesters with periodic updates on the status of requests and in contacting requesters to obtain clarity on requests when necessary.

DCPS continues to implement a fee schedule and collected \$115.00 in fees in FY 21. However, DCPS also continues to have most requesters fail to remit payments when assessed. DCPS assessed \$944.00 in fees for FY 2020 that remain delinquent. DCPS maintains a list of delinquent requesters and requires advance payment for future FOIA requests in accordance with applicable law.

Although there were several large FOIA requests in that consumed inordinate amounts of processing tine, DCPS processed the majority of the requests received in FY 21 within the statutorily prescribed time limits. DCPS will continue to improve the ways in which resources are expended to achieve timely processing of all FOIA requests.

Overall, the DDOT FOIA team is quite proud of the work we accomplished during FY 2021. Aside from continuing to work part of the year under Covid procedures we remained incompliance with the regulatory processing guidelines. Over the first six months of 2021, DDOT received 1/3 to 1/2 more requests than were received in the previous year. Also, we received many FOIA requests for e-mail records which required OCTO searches. In addition to the increased time needed to receive OCTO search results, many of the OCTO searches resulted in multiple large data files. It was a bit overwhelming, but we worked hard to process the requests and communicate with requesters to let them know the FOIA status in these cases.

The single request, of the 17 received by DDS in FY 2021, which was not completed within the normal 15 days, was due to the large amount of data that was requested and DDS employees were not physically present in the office to retrieve hard copies of records retained in DDS' file room due to the COVID-19 public health emergency. DDS remained in communication with the requester, placed the request on hold, and the request was completed (granted in full) as soon as all the requested data was compiled. The requested information was sent to the requester.

The changed definition of day due to the ongoing public health emergency remained in effect for part of the fiscal year, which skewed the numbers. Some requests required additional time beyond the statutory period due to their complexity and/or voluminousness. The DFS complies with the Freedom of Information Act.

DGS processed seven (145) FOIA requests during FY2021 in a manner consistent with FOIA's statutory requirements.

As the FOIA Specialist for the agency the number of hours dedicated to complete all requests is a daily process therefore the amount expended equals the employee annual salary.

The report this year includes the prorated additional time and allocated salary devoted to FOIA by the Senior Assistant General Counsel (approximately 20% of his time) who reviews all FOIA responses and appeals before they are released by the Agency.

DHCF retains a significant number of old FOIA requests that are on hold while awaiting responses from the requesters to requests for more information, which is why we have a relatively high number of pending requests at the beginning of the fiscal year and explains the high average age of the pending requests in response to item 4. The ongoing public health emergency created unique challenges for repsonding to FOIA requests, but DHCF worked diligently to ensure that we responded to requests in a timely fashion, as evidenced by the median number of days to respond being only 2 days in response to item 26. DHCF will strive to maintain its high level of professionalism and fast response times during the next fiscal year.

Pursuant to section 208(a)(9) of the D.C. FOIA, provide in the space below or as an attachment, "[a] qualitative description or summary statement, and conclusions drawn from the data regarding compliance [with the provisions of the Act]." Summary: Under the Exemptions section, most of DHS' exemptions fall under §2-534(a)(2), the personal privacy exemption and (a)(6)(A), the statutory exemption. In DHS' case, personal privacy dovetails with the confidentiality provisions of the Homeless Services Reform Act of 2005. That is why the numbers are duplicative for those two exemptions. DHS' response time has for FOIA compliance has been skewed by eight large FOIA requests, which took extensive review and redaction. For FOIA requests related to Homeless Services, DHS has a three-level review process to ensure DHS customers' confidentiality. Also, two of the most reliable FOIA assistants within the DHS Program staff left DHS during this reporting year, which has required getting new staff properly trained. Lastly, because most FOIA requests submitted to DHS are typically from individuals or entities who operate in the public interest, such as homeless or public assistance advocacy groups, as well as indigent DHS customers, DHS typically waives its FOIA processing fees.

The ongoing COVID-19 pandemic and telework posture resulted in the significant dealy in processing time for several requests. In addition, the majority of the requests received by the agency were for e-mail records, which require coordination with OCTO and often result in voluminous records that require review. This also contributes to delays in processing time.

Pamela Washington was the FOIA Officers for FY 2021 reporting period. Compliance was good this year. The FOIA Officer has a good working relationship with the agency officials that most often assist in responding to FOIA requests. The DMV was able to respond within the initial 15-day period for a majority of the FOIA requests. In a number of cases, especially in instances of press inquiries, reports were required which took an extended period of time. In cases in which the 15-day response time was impossible a letter was sent to the requester. There were a number of requests for information and explanations not

contained in DMV records. The Department continued to receive requests for privileged information unique to motor vehicles, protected by federal and local statutes.

Please be advised that the figures listed above do not compute properly due to various reasons.

1. **FY21 Response times** Within the calendar year of 2021, specifically starting in late June, my response times began to suffer terribly. I unfortunately contracted COVID-19. I had active COVID over two (2) months and was even hospitalized. Mind you, I am the sole individual that processes FOIA requests end-to-end, so they were untouched for an extremely long time. We average most times, close to

- 10 requests every other day.
- 2. **Pending Request Number** Earlier this year also, in June, our former FOIA Officer, Molly Hofsommer, resigned for a new opportunity with another government entity. She and I, when we came aboard DOEE at the start of FY2020, walked into an overextended "Primary Assignment Queue (Pending)" and "Group Queue (New/Incoming)", well over 1000. She and I made an agreement that I would satisfy all the requests in the Pending and Group Queues and she would address all the requests in the FOIA Officer queue (automatically received when she was appointed FO that formerly were assigned to previous FO). Unfortunately, when she left and FOIA IT removed her out of the FX system, and over 700 requests were automatically assigned to me and went into the "Primary Assignments Queue".
- 3. **Times Frames Section** When attempting to complete this section of the report, my ranges in the system did not match the ranges requested on this form so I had to average the figures out. I apologize for inaccuracies of any kind. I checked every report in the system and I never located anything that broke down processing times but the Annual report and within that report, the figures are listed in 20-day increments.

This year's FOIA report doesn't capture the full amount of time that is required to process and provide complete requests because there are many hours that are spent dealing with FOIA that this form does not request information for. For example, there is often quite a lot of time spent helping requesters perfect their requests. This time is not captured on this form. Additionally, a lot of time can be spent going back for follow-up material or following up with requesters to make sure they understand the limitations of the information that is kept by DPR. Again, this information fails to be on this form. While the time processing a request is important it is not the only time that is spent in preparing a FOIA request. Overall DPR saw another increase in requests this year. And a large increase in voluminous requests which required much more time reviewing and searching and follow-up on the part of DPR staff.

Many who submit FOIA requests to DPW are either indigent, represent the media, or fall within the public interest payment waiver exception. As such, DPW usually only assesses fees for FOIA requests that involve an extraordinary amount of time, research and review, or that contain extensive amounts of documents. DPW will continue to assess this process to ensure it meets FOIA statutory standards. Additionally, during the COVID-19 pandemic and beyond, DPW worked diligently to process FOIA requests within statutory timeframes. The team often met or exceeded turnaround time for FOIA requests, even when FOIA requests were in a "Sunday" status. While agency is sometimes challenged to meet, what seems at times, unattainable statutory time frames outlined under the FOIA statute (often due to the volume of a request); COVID-19

regulations provided the agencies additional time to conduct document and record inquiries and process FOIA requests.

The FOIA Officer works with other staff to pull and review documents and roughly 1 FTE is needed to process requests, not including staff who research and collect the documents. The FOIA officer averaged one hour, and roughly 3 hours for other personnel. The costs cannot be identified at this time.

The agency received nine (9) FOIA requests during FY21. The agency was able to resolve eight (8) requests on time. One (1) request went beyond the allotted time-frame due to the need to work with multiple D.C. Government agencies to retrieve the requested information and legally assess what we are permitted to turn over to the requestor.

A majority of EOM's FOIA requests come from the news media and many involve large searches of emails of EOM employees. Requests for access to emails require lengthy OCTO searches, which requires the FOIA Officer to sort and redact only after OCTO produces documents in response to a request.

Numerical Inconsistency: regarding "Time-Frames for Processing FOIA Requests," questions 23-26, the Excel spreadsheet data from FOIA Xpress which was used to answer these questions indicated one less FOIA request which is not reflected in the PDF version of the FOIA Xpress annual report data for questions 23-26. However, the discrepancy is attributable to a body-worn camera request and is reflected as the 1 "improper FOIA request for other reason" on the annual report and is accounted for as a request that took 26 days or more to process in number 25.

Although FEMS has two FTEs dedicated to processing FOIA requests, it enlisted the assistance of a third employee to process FOIA requests in additional to their normal duties due to an overwhelming number of requests created in part by the pandemic and the legislation that tolled FOIA processing timelines

FEMS continues to assess its FOIA processes to ensure continuous quality improvement.

The majority of HSEMA's FOIA requests continue to be requests for video from the District Department of Transportation's closed circuit television (CCTV) cameras. Since CCTV footage is automatically cleared 10 days after the date of capture and many requests for this footage come later than 10 days after the event, "no responsive record" is the disposition for the majority of our requests.

Additionally, HSEMA received received 15 requests related to the January 6 incident at the Capitol. Records pertaining to these requests were pulled and reviewed in coordination with the Executive Office of the Mayor/Office of the General Council. Due to complexity, sensitivity, and volume, these requests were not able to be processed within FY21.

Pursuant to section 208(a)(9) of the D.C. FOIA, provide in the space below or as an attachment, "[a] qualitative description or summary statement, and conclusions drawn from the data regarding compliance [with the provisions of the Act]."

During Fiscal Year 2021, the Metropolitan Police Department (MPD) saw close to a 10% increase from the prior FY, in the total number of FOIA/BWC requests received. Despite this increase, although MPD's median for processing request increased from 11 days from prior FY year to 19 days for simple requests, the median days decreased from 54 days from FY20 to 46 days for complex requests for FY 21. Of the 1,766 requests received in FY 21, MPD completed 1,665. This number represents approximately 95% completions of BWC/FOIA requests received. In addition, more than 50% of the BWC requests received, were processed within the 25 days allotted under the FOIA statute to include the additional 15 day extension.

Approximately 66% of the FOIA (non-BWC) requests received, were processed within the 15 days allotted under the FOIA statute to include the additional 10 day extension.

The significantly longer processing time for some requests has been attributed to the request having a voluminous number of responsive records, specifically requests for e-mails. Requests of this nature are released on a rolling basis and then closed once all responsive documents have been released. Of the requests granted/denied in part, the dominating exemptions that were applied pertained to protection of personal privacy and ongoing open investigations. Additionally, of the BWC requests that were denied in full, the dominating exemptions were for ongoing open investigations.

FOIA, provide in the space below or as an attachment, "[a] qualitative description or summary statement, and conclusions drawn from the data regarding compliance [with the provisions of the Act]." The pending cases from 2020 were a result of the suspension of FOIA deadlines during the emergency government closure. Those FOIA requests caused a higher than usual number of processed FOIA requests this year.

^{*}This is an estimated cost, based upon OAG's subscription to Relativity and other associated expenses.

After the January 6th Capitol riot, OCME experienced a spike in requests for confidential information about decedents who died in relation to the event. Appeals and litigation also spiked when these claims were denied. Much of this could have been reduced with a clearer confidentiality statute for OCME.

Of the requests received by OCTO in FY 2021, 13 involved records in the possession of other agencies, which requests were therefore referred to those specific agencies. With respect to the requests for which OCTO had responsive records, 4 such requests were granted in full and 8 were either denied in full or in part, with the FOIA exemptions utilized being those of deliberative process ((a)(4)), personal privacy ((a)(2)), or trade secrets ((a)(1)). OCTO was not in possession of responsive records with respect to 8 requests, and 1 request did not reasonably describe the records sought.

"For fiscal year (FY) 2021, the OIG's median response time was 13 days and we were able to process 81% of those requests (30/37) within the statutory time frame. Due to the impact of the Covid pandemic, which required us to work out of the office for an extended period of time, seven FOIA requests were not processed wthin 15 days. Initially, the nature of working from home presented difficulties in gathering documentation that may have been relevant to a given FOIA request and thus delayed our response to a requestor. Our goal for FY 2022, is to process all FOIA requests within 15 business days in accordance with the D.C. FOIA statute."

Throughout the COVID-19 pandemic, the Office of the State Superintendent continued to process FOIA requests within the statutory timeframes. We have continued to improve turnaround time for each FOIA request even while the public health emergency regulations pertaining to FOIA deadlines during the pandemic provided the agencies additional time to conduct thorough searches for records and process FOIA requests.

The relatively high number of median days spent processing FOIA requests may be attributed to the past Public Health Emergency, which began on March 11, 2020—and remains in some form as a Public Emergency. Legislation enacted as a result of that Public Health Emergency temporarily changed the definition of "day" for FOIA purposes; effective March 11, 2020, D.C. Code § 2-532 defined "day" as "except[ing] Saturdays, Sundays, days of a COVID-19 closure, and legal public holidays[.]" Although that legislation is no longer in effect as originally enacted, FOIA requests for the purposes of the instant report were subject to the Public Health Emergency provisions, and were responded to in accordance with those provisions.

In fiscal year 2021 the Office of Victim Services and Justice Grants received 5 FOIA requests. One requester was referred to OSSE as OVSJG was not the appropriate agency for their request. Two requests were processed in one hour or less. A request for information on the Private Security Camera Program took significantly longer than usual (56 hours) due to the amount of data requested. One request required 2 extensions and 29 business days to fulfill due to the OCTOs turnaround time for the large amount of data that was requested combined with staff hours required for OVSJG staff to review and package the response.

DC PCSB received fewer FOIA requests in FY 2021 than in FY 2020. Accordingly, the number of staff hours devoted to processing FOIA requests was lower than last year. Even so, FOIA remains a significant stream of work for the agency; 261 staff hours is the equivalent of over 6 weeks of work for one full-time employee. All FOIA requests at DC PCSB are fulfilled by a staff attorney.

Judicial Watch, Inc. v. District Dep't of Transportation, et al., (EOM, DDOT, DPW), Civ. No. 2020 CA 003357 B

b. Exemption(s) Claimed:

D.C. Code § 2-534(a)(2) (personal privacy); D.C. Code § 2-534(e) (deliberative process); D.C. Code § 2-534(a)(10) (emergency response plan); D.C. Code § 2–534(a)(4) (law enforcement)

c. Disposition:

Closed. The District moved to dismiss the Complaint on October 30, 2020, because the District's FOIA response

and appeal deadlines were extended under emergency COVID legislation enacted by the D.C. Council, and thus Plaintiff had not exhausted its claim and the claim was not ripe. The Court granted the motion in part and denied in part on February 24, 2021, and allowed Plaintiff to file an amended complaint, which was then filed on March 2, 2021. Defendants answered on March 17, 2021. After non-exempt responsive records were provided, the parties stipulated to dismissal of the action with prejudice on June 10, 2021.

c. Disposition: Closed. Plaintiffs sought production of common interest

agreements (CIA) entered into by OAG from 2017 through 2020. OAG produced an initial Vaughn Index and then provided a supplemental Vaughn Index of responsive CIAs after conducting a more expansive search, withholding documents exempt from disclosure. The Court granted the District's motion for summary judgment on June 30, 2021, holding that OAG's supplemental production of CIAs with redactions to privileged material complied with FOIA and that the District had demonstrated that OAG conducted an adequate search for responsive records. However, because responsive records were provided after the litigation was brought, Plaintiff was entitled to attorney's fees. The parties settled Plaintiff's attorney's fees for \$15,000 at

mediation in September 2021.

d. Costs Assessed: None, but the parties settled for \$15,000.

OAH's motion to stay discovery was granted on October 6, 2021, and the agency has now produced all responsive, nonexempt records. The Parties agreed during a January 5, 2022 status hearing to confer and jointly propose a schedule for briefing any outstanding disputes by January
